as Head Driver of the Jewell Filters at Mysore but allowed him to work in Bangalore.

4. The Comptroller pointed out that formal orders of Govt through F.D are necessary to treat the establishments attached to Jewell Filters at Mysore and Bangalore as provincial but the Secy P.W.D thinks that separate orders are not required in the case as the order issued in 1912 covers the case in question.

5. The Secy: P.W.D. effected temporary interchange of appointments of Meter Inspectors of the City Distribution at the Bangalore and Mysore Water Works while the Comptroller pointed out that the temporary reduction of Scale of one Office and corresponding increase of another require Sanction of Govt:

1. Note No. 17/R dated 18-7-18.

16 The objections raised in this office letters Nos.6426/E.1766 dated 28-2-17 and 1867/E.394 dated 24-8-16 to the Secretary to Government, P.W.D., are still unremedied.

2. As regards the former, the promotion of Mr. B.Venkataramiah, Chief Operator, Jewell Filters, Bangalore, as Driver, K.G.F. Pumping Station on R.80 from 13-4-13 to 12-7-13 while continuing to work in the Jewell filters was objected to in audit, as the two establishments were distinct and separate and as the excess in the one scale cannot be made up by a deficiency in the other without the orders of Government. The latter objection was also based on similar grounds and related to the exchange of the Meter Inspectors of the Bangalore City Distribution and Vani Vilas Water Works, on R.35 and R.30 respectively from 12-6-15 to 31-1-16, as this temporary transfer involved

involved the temporary reduction of the scale of one office and the corresponding increase of the scale of the other.

3. 17 Under Government Order No. Fi 3730/G.F.8-12 329 dated 10-1-13, the establishments attached to the three Pumping Stations are alone treated as Provincial for effecting transfers of Drivers and Superintendents from one Station to another. As the audit office cannot admit other transfers without orders and as such transfers might be frequently necessary in the interests of the departmental work, it is desirable that orders be issued in Financial Dept placing the Water Supply establishments in all the Stations on a provincial scale for purposes of transfer and promotion. The objections ~~in point~~ will be withdrawn on the issue of orders.

6	The draft order in accordance with the Complr's opinion ~~dispensed~~ is submitted. There is some force in the P.W.D. Secy's views - The different units in the pumping staff, the general staff, and the staff engaged in the distribution of the Chamarajendra Wadi Works, are also proposed to be placed under Engineer's opinion - (File separately submitted) - The pumping staff of the Ch: W.W. is included with similar staff of the 2 other W.W. Vani Vilas staff, whose principal staff for purpose of charges &c - The 3 W.W. being independent works and having different capital revenue accts, it may perhaps not be technically right to treat the staff of the 3 systems as one; but as there is no near prospect of handing over the maintenance of either the Ch: W.W or the Vani Vilas W. to the Municipal bodies, and as the revenue accts of these works will not be materially affected by the proposed arrangement, the W. Secy's proposal might be sanctd.
